In October 2005 we imported a new 3-year old male dog „**RENWAR Tinker Tailor**“ from England. This dog is red and has a very nice face. He has a short body and a very plentiful and long coat of a high quality. His father was imported from the USA and his mother comes from English breeding station „**GHYLLMOIRE**“.

During the first week of his stay by us he showed himself as a very good breeding dog with a great verve and wonderful nature. He services very good and reliably. The first descendants of this male dog were born already at the end of December in 2005 in our breeding station:
